

Rotary Encoder Code

```
void encoder_update_user(uint8_t index, bool clockwise) {  
    if (index == 0) { /* First encoder */  
        if (clockwise) {  
            tap_code(KC_PGDN);  
        } else {  
            tap_code(KC_PGUP);  
        }  
    }  
}
```
